WALL MOUNTED FLAGPOLE GLASSFIBRE

PRODUCT OVERVIEW

Our UK manufactured wall mounted glassfibre flagpoles are a stylish addition to any building. Their tapered appearance and gold onion finial add a prestigious touch to your wall, roof or building corner.

Available in eight sizes ranging from 2 to 12 metres as standard, the vertical wall mounted heavy duty tapered glassfibre pole comes complete with a cup and supporting galvanised steel bracket, gold onion finial and rope and cleat system.

The brackets are bonded to the pole and are attached at specified heights to suit the overall pole height. Specific increases in distances between vertical wall brackets can be accommodated at no extra cost.

Alternatively, a 45° angled wall mounted bracket is available. The accompanying heavy duty tapered glassfibre flagpole is available in 2, 3 or 4 metre lengths as standard (other sizes are available upon request).

The tapered glassfibre flagpoles come as heavy duty as standard. Extra heavy duty and ultra heavy duty poles are available, and are recommended for exposed locations.
